

ICPC East Central NA Regional Contest

ECNA 2020 – 2021 Regional Programming Contest

Final Report

The East Central NA region held its 2020 – 2021 regional contest on March 6, 2021. The contest was successful, with no significant issues.

71 teams from 25 schools competed. Due to the global pandemic, this year's regional contest was held remotely. Teams could compete from wherever it was convenient for them to do so.

Some observations regarding the contest:

- Unlike in previous years, contestants were allowed to use any available computing equipment, limited to one computer per contestant.
- We used Kattis again this year for the contest control system.
- The contest started promptly at 2pm and ended at 7pm. The change in our usual 10am start time allowed us to synchronize contests with six other regions.
- The contest consisted of 12 problems with 66 teams solving at least one problem.
- The maximum number of problems solved by any team was 12.
